

April 09, 2020

Mr. Chris Swain
Bureau of Remediation and Waste Management
Maine Department of Environmental Protection
17 State House Station
Augusta ME 04333

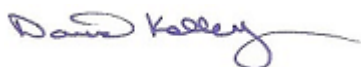

**Subject: Monthly Progress Report –March 2020
Orrington Remediation Site
Orrington, Maine**

Dear Mr. Swain:

This Monthly Progress Report is submitted to Maine Department of Environmental Protection (DEP) in compliance with reporting requirements in the Board of Environmental Protection (BEP) Order (Order) effective April 3, 2014 for the Orrington Remediation Site (Site) in Orrington, Maine, which incorporates, with modifications, the Compliance Order issued by the DEP dated November 24, 2008. This Report covers the period of March **2020** and is submitted on behalf of Mallinckrodt US LLC.

If you have questions regarding this report, please contact me at 774-284-2207.

Sincerely,

David Kelley
Remediation Program Manager

**MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020**

Report Date April 09 , 2020

This Monthly Progress Report is submitted to the Maine Department of Environmental Protection (DEP) documenting the activities completed by Mallinckrodt US LLC (Mallinckrodt) and/or its representatives at the Orrington Remediation Site (the Site) along with a description of upcoming activities.

A discussion of all tasks and actions completed during the reporting period toward achieving compliance with the Order

- The monthly Mallinckrodt – Maine DEP call was held on March 4, 2020. Plant Area Cell Building work plans were discussed along with Ground Water monitoring and installation activities. Additional other discussions took place during the month to discuss Site activities as needed.
- Continued inspection and maintenance of site erosion and stormwater controls.
- Paved sump routine maintenance- Inspection Dates 3/4, 3/13, 3/16, 3/25, 3/30
- Maintained Log of quantities of any visual mercury recovered- **Attached**
- The on-site Maine DEP oversight inspector continued to participate in weekly construction meetings in which current activities as well as a two-week look ahead are discussed. The on-site inspector also continued daily emails to summarize activities to ensure all parties agree on what is planned/accomplished.
- Continued operation of the perimeter air monitoring system and meteorological station
- Stockpile operations continue to support excavation material and rail car loading
- Landfill 1 (CMI Plan – Rev2 Apr 30, 2018; DEP Conditional Approval Letter May 10, 2018; CMI Plan – Rev2 May 17, 2018 (revised to incorporate all conditions in DEP CAL)
 - no new activity
- Plant Area (Draft CMI Plan Feb 13, 2017; Phase 1 Excavation Memo Rev1 Jan 2, 2018; DEP Approval of Phase 1 Jan 9, 2018.) and Plant Area CMIP - Phase 1A (Retort-01 Area and Cell Building Pre-Trenching) work plan July 9,2019. -DEP conditional approval on July 12, 2019
 - Continued SVE system operation and groundwater monitoring
 - Performed quarterly groundwater sampling.
 - Submitted monthly SVE performance update to Maine DEP on 3/31/20
- Plant Area Cell Building CMI Plan Scoping memo and associated plans August 7, 2019. DEP conditional approval September 6, 2019.
 - Continued excavation in Cell Building area
 - Continued backfill in Cell Building area
 - Performed Dewatering and additional sumps installations
 - Performed Removal and decontamination of sheet piles

**MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020**

- Submitted Cell Building CMI Plan – Addendum 1 sheet pile realignment to Maine DEP on 3/23/20 and revised Addendum 1 addressing Maine DEP comments on 3/27/20.
 - Maine DEP conditionally approved revised sheet pile alignment design on 3/31/20 Continued installation of anchors

- Northern Drainage Ditch (CMI Closure Report Nov 27, 2017, DEP Approval Oct 16, 2018)
Continued to maintain erosion and sediment control measures

- Southern Cove (CMI Closure Report Jan 14, 2018, DEP Approval Aug 3, 2018)
 - Continued to maintain erosion and sediment control measures adjacent to the Cove.

- Short-Term Comprehensive Monitoring Plan (Revised ST CMP Feb 24, 2017)
 - The Short-Term CMP includes monitoring of potential remediation impacts as well as ongoing monitoring of groundwater (GW), the GW extraction system (GWES) and Landfill 5.
 - Conducted monitoring according to the Short-Term Comprehensive Monitoring Plan (CMP) during the week of March 9th. March monitoring included monthly and quarterly sampling of groundwater, surface water, and sediment in the vicinity of the Plant Area, and quarterly sampling of groundwater in accordance with the Final GWES, Site Perimeter, and Former Landfill 1 Vicinity monitoring programs. In accordance with discussions with MEDEP, Landfill 5 monitoring is postponed until April.
 - Groundwater Final GW Extraction System (GWES) Plan Oct 16, 2017; DEP Approval Jan 9, 2018)
 - Following receipt of Maine DEP comments in the Final GWES design, submitted response and two revised drawings on Nov 6, 2018 and received Maine DEP approval on Nov 7, 2018.
 - Began Final GWES construction on December 3, 2018.
 - Updated the force-main and electrical/communication conduit alignment and provided updated site plan to Maine DEP on January 16, 2019. Maine DEP provided approval on January 17, 2019.
 - Continued coordination with Woodard & Curran treatment plant personnel for operation of Final GWES.
 - On-going communication and coordination with MEDEP for Final GWES operations and backup power.
 - Continued management and maintenance of Final GWES.
 - Completed installation, start-up, and testing of backup power generator for the groundwater treatment plant and groundwater extraction systems. Demobilized rental generator

- Groundwater at Landfills 3,4,5 (PD WP Jul 19, 2018)
 - Landfills 3-5 Bedrock Groundwater Testing Report and Extraction Design Plan (Design Plan) transmitted to Maine DEP on May 16, 2019. Maine DEP comments and conditional approval received June 13, 2019
 - On-going communication and coordination with MEDEP for final GWES operations and backup power, and Landfills 3-5 area investigations and testing.

MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020

- Conducted water quality monitoring in the Landfills 3-5 area during the week of March 9.
- Received Maine DEP comments on the Phase 2 Landfill 3-5 GWES design plan on March 17, 2020

- Groundwater Model (Model Feb 22, 2016, DEP Acceptance of Model Sept 15, 2017)
 - No new activity
- Groundwater Treatment Plant (GWTP) Operation
 - Continued to collect mercury compliance samples from Outfall 001 (once per month with analysis per USEPA Method 1631) and Outfall 002 (one sample per quarter with analysis per USEPA Method 245.1) for transport to Katahdin Analytical Services (Katahdin) for analysis per the MEPDES permit dated May 3, 2019
 - Provided support to CDM as necessary for ongoing remedial site activities including routine treatment of excavation/ construction water generated during remedial activities.
 - The average daily flow through the GWTP was 59,255 gallons with 363,805 gallons total from precipitation and construction related activities.
 - During March excavation continued in the Cell Building area, warming temperatures resulted in most of the snow melting, excavation depth increases, and six deep sumps replaced the three shallow sumps which had pumped all winter contributing to a significant increase in volume which has allowed the north excavation to be partially backfilled.
 - Per the Woodard & Curran Operator one TSS test was conducted on the 30th due to color rather than solids. The result was 364 mg/L. A log of TSS checks is **attached** to this report.
 - Submitted the February 2020 NetDMR to MEDEP on March 2, 2020
 - Submitted the February 2020 Toxheets on March 2, 2020
 - Removed CoMag accumulated scale in the clarifier
 - Installed fresh carbon into T-4490 on March 29th and placed into final polish location
 - Completed all routine maintenance.
 - Provided support to Anchor QEA for their work associated with compiling Site data.

- Other Site Activities
 - Completed routine site maintenance activities
 - Received Maine DEP comments on the 2019 Annual Perimeter Air monitoring report on March 30, 2020
 - Issued and Communicated Site wide COVID19 Health and safety Procedures and Guidance for all site personnel and visitors on March 30, 2020

**MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020**

A detailed summary of all results of sampling, tests, shipments from the Site and other data received by Mallinckrodt in the prior (previous month) reporting period pursuant to this Order

- Air monitoring and meteorological data is collected continuously by the perimeter air monitoring system and stored in the computer system. Weekly reports are sent to Mallinckrodt. Mallinckrodt will notify the Maine DEP of exceedances in accordance with the updated notification protocol sent to Maine DEP on Aug 28, 2018. An annual report of all data for the preceding year will be submitted to DEP by March 1 of the following year.
- Unvalidated data and laboratory reports are submitted to Maine DEP via the automated database system as they are available. Data validation is conducted by TechLaw as outlined in the Maine DEP approved Data Validation Protocol dated Jan 29, 2018 and a summary of the validation results sent to Maine DEP and Mallinckrodt.
 - Received laboratory analytical data from March monitoring according to the Short-Term CMP and water quality monitoring in the Landfills 3-5 area. Data will be submitted to MEDEP following completion of internal quality control review.

Completed Areas:

- Landfill Ridge Area (CMI Closure Report Feb 3, 2017; DEP Acceptance Aug 21, 2017)
- Landfill 2 (CMI Closure Report Dec 21, 2017; DEP Approval Jul 2, 2018)
- Landfills 3, 4 and 5 (CMI Closure Report Jul 25, 2017; DEP Acceptance Oct 3, 2017)
- Scrap Metal Yard (CMI Closure Report Jul 25, 2017; DEP Acceptance Oct 3, 2017)
- Southerly Stream (CMI Closure Report Nov 15, 2017, DEP Approval Oct 16, 2018)
 - Continue to maintain erosion and sediment control measures and cap inspections as appropriate.

A discussion of all tasks and actions scheduled for the coming reporting period including the date for initiating and completing such activities including percent completion where applicable.

- Continue technical discussions with Maine DEP on remediation activities and pending submittals.
- Continue to include the on-site Maine DEP oversight inspector in weekly construction meetings.
- Continue to review the on-site Maine DEP oversight inspector emails outlining planned and completed activities to ensure no miscommunication.
- Continue operation of the perimeter air monitoring system.
- Continue stockpile management of excavated materials and loading railcars for shipment
- Continue to maintain and improve erosion and sediment control measures and cap inspections as appropriate in completed areas listed above.
- Landfill 1 (CMI Plan – Rev2 Apr 30, 2018; DEP Conditional Approval Letter May 10, 2018; CMI Plan – Rev2 May 17, 2018 (revised to incorporate all conditions in DEP CAL)

MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020

- Monitor and Maintain restored areas as needed
- Plant Area (Draft CMI Plan Feb 13, 2017; Phase 1 Excavation Memo Rev1 Jan 2, 2018; DEP Approval of Phase 1 Jan 9, 2018.) and Plant Area CMIP - Phase 1A (Retort-01 Area and Cell Building Pre-Trenching) DEP approval on July 12, 2019
 - Maintain erosion and sediment controls.
 - Continue SVE system operation and continue groundwater monitoring
- Plant Area Cell Building CMI Plan Scoping memo and associated plans August 7, 2019 :DEP conditional approval September 6, 2019
 - Continue excavation and backfill of cell building area
 - Commence Phase 2 Sheet Pile Installation
 - Complete Test Pits as feasible
 - Dewatering and additional sump installations as needed
- Northern Drainage Ditch (CMI Closure Report Nov 27, 2017, DEP Approval Oct 16, 2018)
 - Continue to maintain erosion and sediment control measures.
- Southern Cove (CMI Closure Report Jan 14, 2018, DEP Approval Aug 3, 2018)
 - Monitor vegetation growth and maintain as needed.
- Short-Term Comprehensive Monitoring Plan (Revised ST CMP Feb 24, 2017)
 - Conduct Short-Term CMP remediation monitoring in accordance with the approved plan
- Groundwater
 - Final GW Extraction System (GWES) Plan Oct 16, 2017; DEP Approval Jan 9, 2018)
 - Conduct monitoring according to the Short-Term CMP.
- Groundwater at Landfills 3,4,5 (PD WP Jul 19, 2018)
 - Continue design of Landfills 3-5 area GWES. Discuss conceptual design with MEDEP via web conference.
- Groundwater Model (Model Feb 22, 2016, DEP Acceptance of Model Sept 15, 2017)
 - No planned activity
- Groundwater Treatment Plant (GWTP) Operation
 - Continue compliance sampling of Outfall 001 and 002 per the MEPDES permit.
 - Submit March 2020 NetDMR to MEDEP.
 - Complete and submit to Maine DEP the March 2020 Toxscan Report.
 - Begin small scale trials substituting PAC for Mag Chloride which should aid in floc negative buoyancy.
 - Continue to support CDM and Sevee & Maher with ongoing remedial site activities, as needed.

**MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020**

- Other Site Activities
 - Continue routine site maintenance activities.

Tasks not completed as required, original and revised completion dates, reasons for delay, actions taken to minimize the delay and any other problems or anticipated problems

None

As of the end of Q4 2019 the quantity of waste shipped is shown below:

- **Leach Field: Soil excavation and off-site disposal is complete.**
 - A total of 14 railcars, containing 1,379 tons (TSDf weight) of non-hazardous Leach Field soils, have been shipped off site to Republic facility in Niagara Falls, New York.
- **Landfill Ridge: Soil excavation and off-site disposal is complete.**
 - A total of 564 railcars, containing 55,158 (TSDf weight) tons of non-hazardous Landfill Ridge soils, have been shipped off site.
 - 534 railcars to the Republic disposal facility in Niagara Falls, New York
 - 30 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Scrap Metal Yard: Soil excavation and off-site disposal is complete.**
 - A total of 413 railcars, containing 40,556 tons (TSDf weight) of non-hazardous Scrap Metal Yard soils, have been shipped off site
 - 412 railcars to the Republic disposal facility in Niagara Falls, New York
 - 1 railcar to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Northern Drainage Ditch: Soil excavation and off-site disposal is complete.**
 - A total of 307 railcars, containing 29,440 tons (TSDf weight) of non-hazardous Northern Drainage Ditch soils, have been shipped off site.
 - 307 railcars to the Republic disposal facility in Niagara Falls, New York
 - 0 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Southerly Stream: Soil excavation and off-site disposal is complete.**
 - A total of 112 railcars, containing 10,583 tons (TSDf weight) of non-hazardous Southerly Stream soils, have been shipped off site.
 - 102 railcars to the Republic disposal facility in Niagara Falls, New York
 - 10 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Landfill 2: Soil excavation and off-site disposal is complete.**
 - A total of 441 railcars containing Landfill 2 soils have been shipped off site to date.
 - 118 railcars of 11,557 tons (TSDf weight) of non-hazardous Landfill 2 soils
 - 108 railcars to the Republic disposal facility in Niagara Falls, New York
 - 10 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
 - 323 railcars containing 31,497 tons (Site weight) of hazardous (listed waste) soils to the US Ecology Stablex disposal facility in Quebec, Canada
- **Southern Cove: Sediment removal and off-site disposal is complete.**

**MONTHLY PROGRESS REPORT
ORRINGTON REMEDIATION SITE
Orrington, Maine
March 2020**

- A total of 190 railcars containing 18,548 tons (TSDf weight) of non-hazardous Southern Cove sediments, have been shipped off site.
 - 190 railcars to the Republic disposal facility in Niagara Falls, New York
 - 0 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Plant Area Phase 1: Soil excavation and shipments are complete**
 - A total of 303 railcars containing 29,490.73 tons (TSDf weight) of non-hazardous soils have been shipped from the Site:
 - 283 railcars to the Republic disposal facility in Niagara Falls, New York
 - 20 railcars to the US Ecology Stablex disposal facility in Quebec, Canada.
- **Plant area Phase 1 A and Cell Building Soils excavation and shipments are ongoing**
 - In March 44 rail cars of Plant Area Phase 1 A and Cell Building soils were shipped off site
 - 18 rail cars containing 1,762.75 tons of non-hazardous soils(site weight)
 - 26 rail cars containing 2,533.10 tons of Hazardous soils(site weight)
 - A Total of 325 rail cars of Plant Area Phase 1 A and Cell Building soils have been shipped of site to date
 - 107 railcars containing 10,498.65 tons of non- hazardous soils (site weight)
 - 106 railcars to the Republic disposal facility in Niagara Falls, New York
 - 1 railcar to US ecology Stablex disposal facility in Quebec
 - 218 railcars containing 21,821.35 tons of hazardous Soils(site weight)
 - 218 railcars to the US Ecology Stablex disposal facility in Quebec, Canada
- **Landfill 1: Soil excavation and shipments Complete.**
 - A total of 886 railcars of Landfill 1 soils have been shipped off site.
 - 676 railcars containing 66,111.70 tons (TSDf weight) of non-hazardous Landfill 1 soils
 - 676 railcars to the Republic disposal facility in Niagara Falls, New York
 - 210 railcars containing 20,506.1 tons (TSDf weight) of hazardous Landfill 1 soils
 - 210 railcars to the US Ecology Stablex disposal facility in Quebec, Canada
- **Elemental Mercury- see attached log.**
 - 208 Lbs. total recovered since project inception
 - 2 Lbs. recovered in March 2020
 - Shipments: NA
- **General Debris**
 - Metals, AIM Recycle Metals 18,740lbs 3/12/20

Maine Hazardous Waste Fees

Under the DEP Hazardous Waste Transporter Program, EQ Northeast, Inc. pays \$60/ton to the Maine Hazardous Waste Fund for hazardous wastes transported and disposed off-site. **Updated as of December 31, 2019, the total paid under this program is \$3,854,799.00 (by rail) and \$ 1,800.00 (by Truck)**

- The 2nd Quarter 2017 report lists 13,150.65 tons of hazardous soil transported by rail and disposed off site for a total fee of \$789,039 which was paid 9/28/17.
- The 3rd Quarter 2017 report lists 14,125.95 tons of hazardous soil transported by rail and disposed off site for a total fee of \$847,557 which was paid 12/1/17.
- The 4th Quarter 2017 report lists 4,190.10 tons of hazardous soil transported by rail and disposed off site for a total fee of \$251,406 which was paid.
- On Nov 13, 2017 an additional 30 tons of hazardous waste was transported by truck and disposed off site for a total fee of \$1,800.
- The 1st Quarter 2018 report lists 0 tons of hazardous soil transported and disposed off site.
- The 2nd Quarter 2018 report lists 4,288.20 tons of hazardous soil transported by rail and disposed off site for a total fee of \$257,292 which was paid 8/22/18.
- The 3rd Quarter 2018 report lists 8,4170.10 tons of hazardous soils transported by rail and disposed of off site for a total fee of \$ 505,026.00
- The 4th Quarter 2018 report lists 7800.08 tons of hazardous soils transported by rail and disposed of off site for a total fee of \$ 468,048.00
- The 1st and 2nd Quarter 2019 report lists 0 tons of hazardous soils transported by rail and disposed of off site for a total fee of \$ 468,048.00
- The 3rd Quarter 2019 report lists 5,064.75tons of hazardous soils transported by rail and disposed of off site for a total fee of \$303,885.00/
- The 4th Quarter 2019 report lists 7,209.10 tons of hazardous soils transported by rail and disposed of off site for a total fee of \$432,546.00

Maine Statute 1319-I requires transporters of regulated hazardous materials (per 49 CFR 172.101) by rail to pay 15 cents/ton on the shipments. As of December 31, 2019, the total paid under this requirement is **\$45,797.03**
